### **The Maryland Women's Society**

Launched in 2025, the Maryland Women's Society connects Terp women to advocate for the initiatives and programs they are passionate about on campus. We offer a platform to uplift future generations of Terp leaders and support critical areas of focus and momentum for the university.

### **Who We Are**

The Maryland Women's Society is composed of University of Maryland supporters of all ages, personal interests and life stories who make a difference by investing in the transformational work of our students and faculty, creating an immediate impact through their annual contribution of \$1,000.

### **Engagement**

We're excited to welcome you to this vibrant new donor community. Members of the Maryland Women's Society contribute to the Maryland Women's Fund with an annual gift of \$1,000—100% of which supports a rotating campus priority chosen by the Society each year.

Members can look forward to engaging with this special community over the next year, including these planned activities and events:

**March 2026:** Voting will open for Women's Society donors to select funding recipients.

**March 15, 2026:** Supporters who make an annual donation to the Maryland Women's Society by this date will be eligible to vote on the selection of funding recipients.

**May 2026:** The inaugural Maryland Women's Society annual luncheon will be held, featuring the announcement of the winning funds.

Members will also receive a Maryland Women's Society signature brooch, an annual report on the impact of their generosity, and regular communications with campus updates and other exciting opportunities for involvement.
